3-Year Mechanical Parts & Labour

Adversity due to outdoor and indoor pollutants

Outdoor pollutants

Smog-forming pollutants come from factories in China

Haze problem induces poor visibility.

Pollutants, such as particulate matters and nitrogen dioxide, that emitted from motor vehicles.

Waste deposition in landfills.

Indoor pollutants

Mold Spore
Cause of sick building syndrome, and sick human beings

Tobacco Smoke
Second hand tobacco smoke has potentially fatal consequences, even for non-smokers

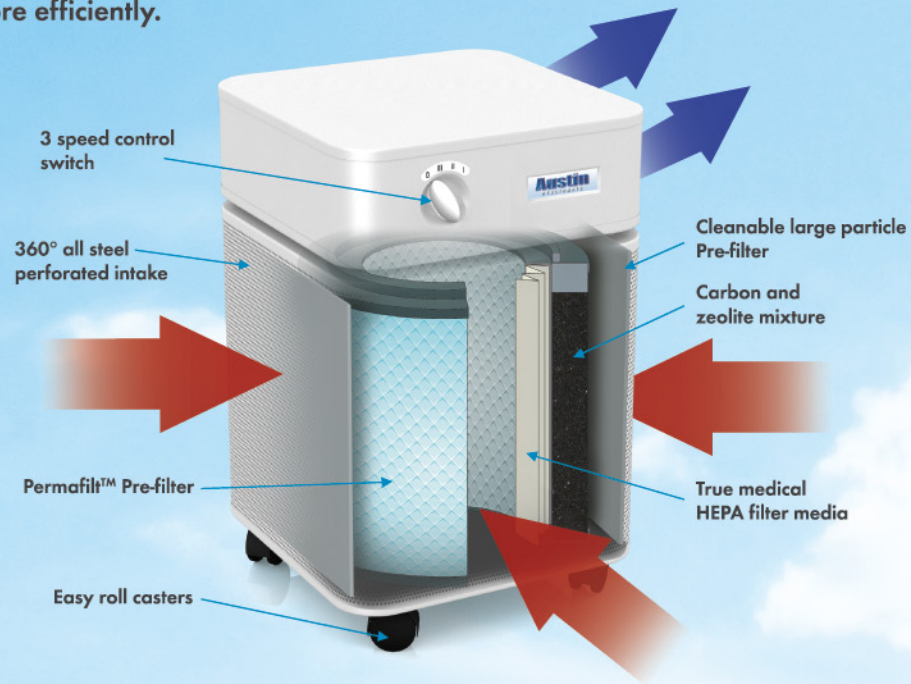

Pet Allergen
It's not pet hair but rather a protein found in a pet's dander or saliva that poses the greatest threat to a person's well being.

Dust Mites
One single dust ball can contain as many as 250,000 house dust mites, every one of them provoking allergies and asthma.

How Austin Air works?

360-degree progressive filtering system, clean air delivered fast and more efficiently.

STAGE 1 – Cleanable Large Particle Pre-filter

Removes particles easily seen by the naked eye (e.g. dust, hair and pet dander)

STAGE 2 – Permafilt™ Pre-filter

Removes small to medium size particles (e.g. molds, spores and pollen)

STAGE 3 – Activated Carbon and Zeolite

Removes over 3000 chemicals, toxic gases and odor (e.g. volatile organic compounds, formaldehyde)

STAGE 4 – Certified True Medical Grade HEPA filter

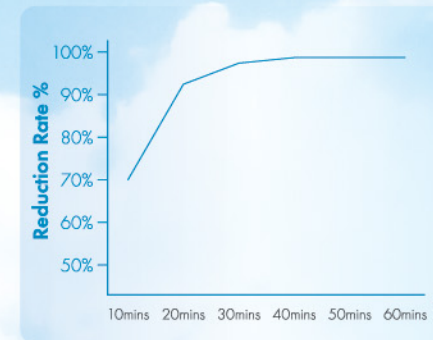

Removes 99.97% of all particles larger than 0.3 microns (e.g. viruses, bacteria, allergens)

Benefits of clean air

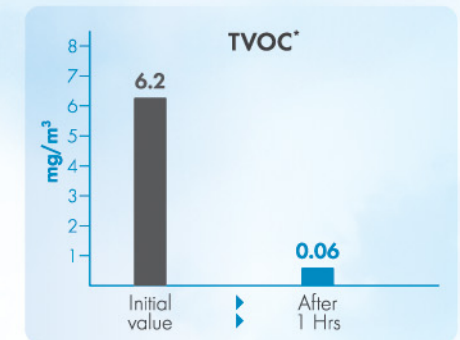

Reduce nighttime snoring, allergies & asthma attacks

- Ease Sick Building Syndrome (e.g. sneezing, coughing, runny nose, headache and other allergies)
- Strengthen your immune system
- Keep from infections diseases

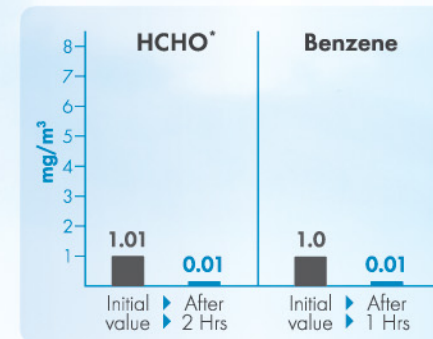

Reduction of PM2.5*

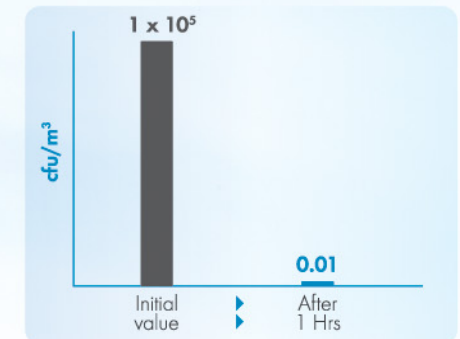

Reduction of Chemicals

Reduction of Chemicals

Remaining of Bacteria and Virus

* PM2.5 stands for particulate matters sized at 2.5 microns
TVOC stands for total volatile organic compounds
HCHO stands for formaldehyde

Junior Unit

Technical Specifications

Dimension: 415H x 280W x 280D(mm)

Weight: 11 kg

Coverage: 500 sq.ft.

Finishing: 22 gauge steel construction with powder-coated paint finish

Power rating: 60 Watt (Highest setting)/ 220Volt

Filter Assembly:

1. Cleanable Large Particle Pre-filter
2. Permafilt™ Prefilter
3. 6.5 lbs mixture of solid activated carbon and zeolite
4. 30 sq.ft. true HEPA medical filter (trapping 99.97% larger than 0.3microns fine dust)

Fan and Motor Assembly*:

Fan Speed: High; Medium; Low

Air Flow Rate: 200/100/50 CFM

Power Consumption: 60/30/20Watt

Warranty:

5-Year Warranty

- First 3-Year Mechanical Warranty.
- 5-Year free on-site labour charge for checking and filter replacement service. (except for filter cost)

Standard Unit

Technical Specifications

Dimension: 580H x 370W x 370D(mm)

Weight: 21.3 kg

Coverage: 1,000 sq.ft.

Finishing: 22 gauge steel construction with powder-coated paint finish

Power rating: 120 Watt (Highest setting) / 220Volt

Filter Assembly:

1. Cleanable Large Particle Pre-filter
2. Permafilt™ Prefilter
3. 15 lbs mixture of solid activated carbon and zeolite
4. 60 sq.ft. true HEPA medical filter (trapping 99.97% larger than 0.3microns fine dust)

Fan and Motor Assembly*:

Fan Speed: High; Medium; Low

Air Flow Rate: 400/200/75 CFM

Power Consumption: 120/70/50Watt

Warranty:

5-Year Warranty

- First 3-Year Mechanical Warranty.
- 5-Year free on-site labour charge for checking and filter replacement service. (except for filter cost)
