Pressure Requirements

20.75"(H) x 3.25"(Dia.)

Approx. 34,068L (9,000 gallons)

Approx. 6.3L/min (1.67GPM)

0.5 Micron

2 − 38 °C

10 - 125 psi, non-shock

Application

- For fountain beverage applications
- For combination system applications

Benefits

- New and improved Micro-Pure II media with AgION™ antimicrobial protection inhibits any potential bacteria growth
- Reduces chlorine taste and odor and other offensive contaminants that can adversely affect the taste of beverages
- Improves the taste of fountain beverages and helps retain the drink's carbonation
- Precoat submicron technology reduces dirt and particles as small as 1/2 micron in size and possible health contaminants such as asbestos fibers and Cryptosporidium and Giardia cysts
- Protects drink system seals, pump, tubing and small orifices from clogging, corrosion and abrasive wear
- Sanitary cartridge replacement is simple, quick and clean. Internal filter parts are never exposed to handling or contamination
 - NSF Certified under NSF/ANSI Standards 42 and 53
