

Air Purifier Model : A3B

Technical Specifications

Dimension : 325W x 172D x 542H mm

Coverage : 8m² ~ 24m²

CADR : 200 m³/Hr

Finishing : Non-Toxic and Harmless ABS Material

Power Rating : 40W, 220~240 Volt, 50~50 Hz

Length of Power Cord : 180 cm

Fan Speed : 4 Levels Fan Speed

Noise : 30 dB ~ 57 dB

Air Quality Sensor : PM 2.5 with Indicator and Color Display

Filter Life Span : 1,500 Hours with Reminder

Control : Touch Panel, APP, Timer

Filter Assembly

Primary Filter - 5 micron Cleanable Pre-Filter

Filter out large particle

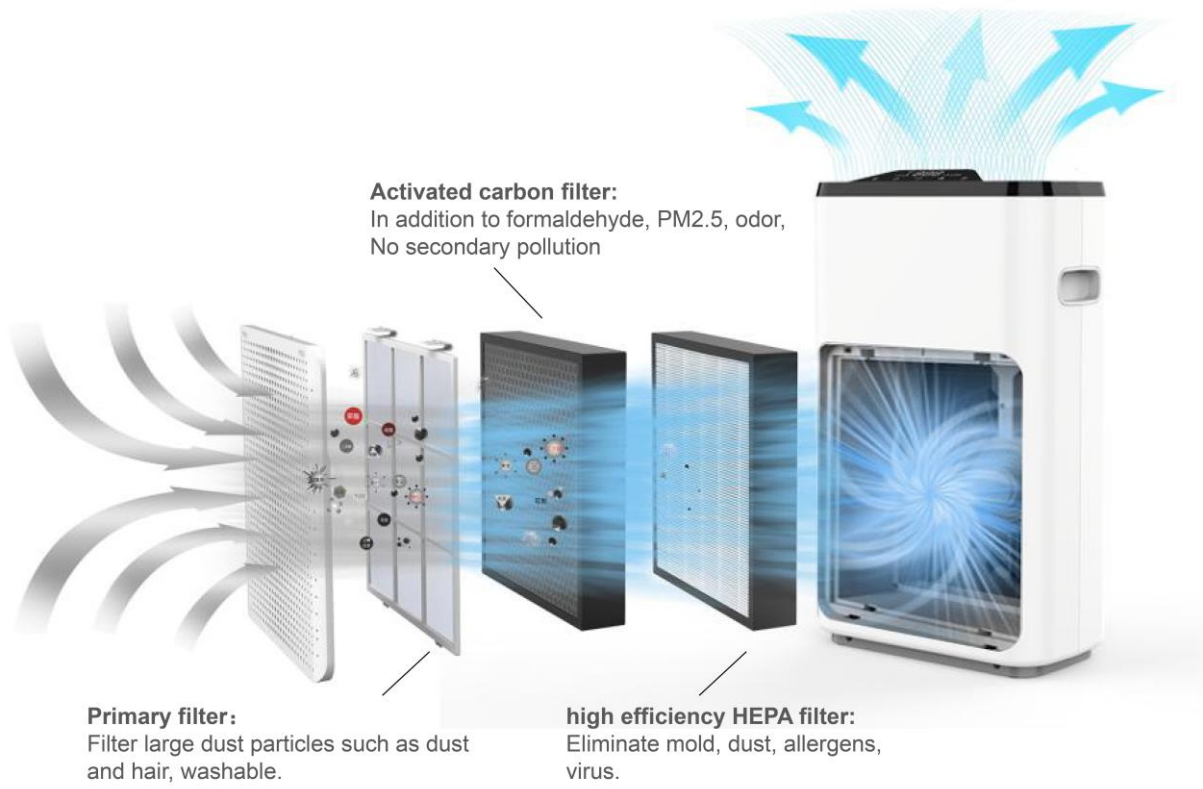

Activated Carbon Filter - Honeycomb structure with columnar granular activated carbon

Absorb Harmful gases such as TVOCs, HCHO, Benzene

Better Aerodynamic performance, high adsorption efficiency and small drag coefficient.

HEPA Filter - H12/13 HEPA Filter

Filter out small particles larger than 0.3 micron
